**DETAILED ACTION**

***Allowable Subject Matter***

The following is an examiner's statement of reasons for allowance:

The prior art of record does not disclose or suggest either in singularly or in combination the following limitations and other elements in the claims. References White et al., Haga, Yoshii et al., and Harder et al. do not disclose:

- A single crystal thin film of a Group II-VI having a semiconductor resistivity is less than 0.5 ohm.cm.
- The p-type Group II-VI semiconductor material has a luminescent peak at 3.357eV.

Therefore, the above references do not disclose the claimed invention of present application and claims 1-8 and 11-44 are allowed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
